**Commissioner for Patents**

The IDS filed 4/15/2010 is acknowledged as has been considered. Regarding the IDS filed 6/05/2006, it was previously indicated that only the abstracts of JP 11-130678, WO 03/009872, WO 03/074483 and WO 04/065365 were considered. Additionally, it was previously indicated that Kuwada et al and Kiyohiro et al were not in English, and were thus lined through. However, as stated by MPEP 609.04(a) where the information listed is not in the English language, but was cited in a search report or other action by a foreign patent office in a counterpart foreign application, the requirement for a concise explanation of relevance can be satisfied by submitting an English-language version of the search report or action which indicates the degree of relevance found by the foreign office. This may be an explanation of which portion of the reference is particularly relevant, to which claims it applies, or merely an "X", "Y", or "A" indication on a search report. Accordingly, since the indicated prior art are in a foreign language, they have been considered to the extent that they are indicated in the International Search Report as an "X". The IDS filed 6/05/2006 indicated as considered is attached.
